

An Official statistics publication. Publication date: 2 December 2025.

About this release

This release by NHS Education for Scotland (NES) provides a quarterly update, as at 30 September 2025. This includes the number of staff directly employed by NHSScotland and the number of vacant posts there were for nursing and midwifery staff, allied health professions, and medical and dental consultants. When describing the size of a particular staff group figures are presented either as headcount (actual number of staff) or whole time equivalent (WTE) which adjusts the headcount to take account of part time working.

Key Workforce Figures

Background

Information on staff directly employed is sourced from each NHS Board's human resources and payroll systems. These are dynamic, operational systems and data can change over time. Work is undertaken with NHS Boards to improve data quality and previously published information may change from one publication to the next to reflect these improvements.
